**Regarding the appointment of an evaluation committee**

The faculty has requested the Department of Physics to find an appropriate evaluation committee to assess your thesis titled "Mind and Matter in a Single Cosmic Model". The academic environment considers that this thesis does not fit the scientific criteria we use, and concludes that we do not have the expertise to assess the thesis. We do not exclude that the thesis will fit at other faculties.

Sincerely yours

Solveig Kristensen

Vice dean (studies and education)
